

Vigneshwaran P

Full Stack Developer | vigneshwaranmk@gmail.com | +91 9786287455 | Chennai

Professional Summary

Full Stack Software Developer with 2 years of experience in developing enterprise web applications, ERP systems, workflow automation solutions, and analytical dashboards. Skilled in ASP.NET Core, C#, Angular, JavaScript, TypeScript, SQL databases, REST API development, and database design. Experienced in the complete software development lifecycle, including requirements analysis, development, testing, deployment, and support. Strong problem-solving skills with experience delivering scalable and business-focused solutions in Agile environments. Passionate about Microsoft technologies and enterprise application development.

Core Competencies

- **Backend Technologies** – ASP.NET, C#, .NET Framework, PHP, Laravel, Next.js
- **Frontend Development** – Angular, JavaScript, TypeScript, HTML5, CSS3, Bootstrap
- **Database Development** – SQL Server, MySQL, PostgreSQL, Stored Procedures, Query Optimization
- **API Development** – RESTful APIs, API Integration, Authentication & Authorization
- **Enterprise Applications** – ERP Systems, Workflow Automation, Business Process Solutions
- **Software Engineering** – OP, Design Patterns, SDLC, Agile Development
- **Reporting & Dashboards** – Business Reports, Data Visualization, Analytical Dashboards
- **Cloud & DevOps** – Azure Fundamentals, Azure DevOps, CI/CD Concepts

Technical Skills

Category	Technologies
Backend	ASP.NET Core, C#, PHP (Laravel, Livewire), REST APIs
Frontend	Angular, JavaScript, TypeScript, HTML5, CSS3, Bootstrap, Next.js
Databases	MySQL, PostgreSQL
Cloud & DevOps	Azure Fundamentals, Azure DevOps, CI/CD Concepts
AI Tools	OpenAI API, Gemini AI, GitHub, Claude, AI API Integration
Tools	GitHub, Figma, Canva, WordPress, XAMPP, PgAdmin

Professional Experience

KY Technologies – Software Developer (2024 – Present)

- Developed and maintained enterprise web applications, ERP systems, workflow automation solutions, and business dashboards using Laravel, ASP.NET Core, Angular, JavaScript, and TypeScript.
- Designed and implemented RESTful APIs to enable seamless integration between internal systems and third-party applications.
- Developed and enhanced ERP, HRMS, and School Management System (SMS) modules, supporting business operations through scalable and maintainable software solutions.
- Developed analytical dashboards and reports to support business decision-making and

performance tracking.

- Implemented authentication, authorization, and role-based access controls to enhance application security.
- Worked in Agile development environments, participating in sprint planning, code reviews, testing, and release activities.

Projects Summary

Revenue DIFOT

- Led the end-to-end development and delivery of the Revenue DIFOT platform, ensuring timely project completion and stakeholder satisfaction.
- Developed a comprehensive revenue tracking and performance management solution to monitor delivery performance and business KPIs.
- Designed and implemented interactive dashboards, analytical reports, and data visualization modules for operational insights

SMS

- Led the initial development and successful delivery of a School Management System, ensuring the timely completion of key modules before transitioning the project to the maintenance team.
- Designed and developed core modules for Student Management, Teacher Management, Attendance Tracking, Holiday Management, and Academic Records with **RBAC** system.

ERP

- Developed dynamic form-based modules to digitize and automate manufacturing, procurement, quality, and approval workflows.
- Built configurable workflow engines enabling departments to define approval hierarchies, process stages, and business rules without code changes.
- Collaborated with business teams to convert manual Excel- and email-driven processes into automated ERP workflows, improving operational efficiency.

HRMS

- Developed and maintained HRMS modules, including Employee Management, Attendance, Leave Management, Payroll, Recruitment, and Performance Evaluation using Laravel.
- Designed and implemented role-based access control (RBAC) to manage permissions for HR, Managers, and Employees.

Education

- B.Tech in Information Technology
Mohamed Sathak Engineering College, Anna University
CGPA: 8.06 / 10 (80.56%)

Certifications

- PHP, MySQL, Python – IIT Bombay
- Analytics for Hospital Healthcare Data – ICT Academy & IBM India
- Team2Solve & Code2Build – IT-ITES SSC, NASSCOM

Events & Workshop

Microsoft AI Tour 2025 – Attendee, Bangalore
Exposure to Copilot AI, cloud platforms, and emerging Microsoft technologies.
