PROFESSIONAL EXPERIENCE

Software Developer — **Jul 2024 – Oct 2026**
KY Technologies — Chennai, Tamil Nadu, India

- Developed and deployed a .NET Core ERP application using Entity Framework Core and role-based access control (RBAC), scaling the platform into production use by 300+ users.
- Designed RESTful APIs and a JWT-based RBAC authentication layer across ASP.NET Core and Laravel applications shared across ERP, HRMS, and School Management System platforms, supporting 7+ user roles with zero unauthorized-access incidents.
- Built and shipped a Laravel-based HRMS platform using PHP and MySQL (Employee Management, Attendance, Leave, Payroll, Recruitment, Performance modules), adopted by 50+ users across departments.
- Built an AI workflow-automation feature using Ollama with Qwen models (qwen2.5vl vision + text composer) that generates process workflows from uploaded PDFs, with a .NET backend service and an Angular preview UI for text and diagram views.
- Developed in-house LLM capabilities for the company's SaaS suite (HRMS, ERP, ATS resume parser, Gold Management), integrating self-hosted models alongside OpenAI, Gemini, Claude, and Groq APIs, including AI chatbots and a Recruitment AI workflow.
- Developed a Sales AI Assistant using LLM APIs and prompt engineering to support sales teams with conversational, AI-driven assistance within the in-house SaaS platform.
- Optimized SQL Server and MySQL schemas and queries to improve performance across multi-module reporting.
- Collaborated in a 15-engineer cross-functional Agile team across the full SDLC; recognized as Employee of the Month for consistent delivery.
